

Intruder Alarms & Systems Monitoring

Peace of Mind is Priceless

*We monitor alarms that are important to you.
When you're not there, GGL Security is.*

It takes years to grow and establish your business. It takes minutes for thieves and vandals to damage and destroy it. GGL Security licensed **Alarm Receiving Centre** protects what's important to you - your home, business, family, staff and colleagues.

The Facts

- › Over **60% of intruder alarms are ignored** and treated as nuisance noise.
- › *Intruders are aware of this fact.*
- › **Gardaí do not respond to alarm activations** unless they are verified by a certified Alarm Receiving Centre.
- › Alarm systems monitoring means **lower insurance costs**.

The Solution

Install an alarm system from a licensed alarm installer and have it monitored by GGL Security – Now your alarm system is truly working for you.

- › The GGL controller at our licensed **Alarm Receiving Centre** immediately identifies the location of your property and type of alarm - fire, intruder, panic button, temperature etc.
- › The GGL controller will take into account the agreed procedures and will contact the key holder or staff and if necessary the Gardaí and other emergency services will be sent to the premises.
- › GGL Monitoring Centre Controllers will respond and report on the activation at your home or business.
- › GGL deals with all the activations as they happen and responds appropriately.

The Result

Having your alarm monitored by GGL Security benefits you and your business in many ways:

- › GGL provides a quick, comprehensive and highly professional response.
- › You benefit from lower insurance costs.
- › You can relax knowing that your home or business is safe while you're away.
- › GGL Alarm Monitoring is one of the most cost effective security solutions available.
- › Peace of mind is priceless.
